

The NGB 23B, Retirement Point Accounting Statement (RPAS), is a document that needs to be retrieved from Reserve Component Automation System (RCAS) by your unit full time staff.

The NGB 23A, can be used as an authorized substitution. The NGB 23A is also a RPAS but in longer form can be found in your iPERMS as it is an annual account as of your retirement point cycle year. (Based off your Pay Entry Base Date (PEBD)).
